I want to thank each of you for all of your support during this time. You are part of an amazing dedicated group of members that make us a community. We understand for many of you this is the only thing you do here at the club and we realize it's such an important part of your well-being. This schedule is for the summer and we will continue to evaluate all offerings and make adjustments as needed.

We understand that this might not be the perfect class experience or how you want to be with your classmates. I am confident that we can make adjustments as we get into the pool to enhance the class experience. I am confident that we will see all of you together again for one of your amazing pot-lucks. Thanks for your understanding and cooperation during this time.

Stay strong. Stay healthy. Stay positive. We will get through this together.
